

Training Blitz

Winter 2020

Flatwoods Days Inn & Suites by Wyndham
350 Days Dr, Sutton, WV 26601

PROGRAM

Tuesday, January 14, 2020

8:00 AM	9:00 AM	Registration Continental Breakfast with Exhibits
9:00 AM	10:00 AM	WDO Treatments, Reid Ipser, BCE, Nisus This session will cover a broad and general overview of several wood destroying organisms and treatments.
10:00 AM	11:00 AM	Moisture Damage and Wood Decay Fungi, Reid Ipser, BCE, Nisus This session will cover a basic overview of what fungi are, they type of damage they cause, how to identify them, treat them, and get more involved in this "growing" market.
11:00 AM	11:15 AM	Refreshment Break with Exhibits
11:15 AM	12:15 PM	Carpenter Ants: Life History, Economic Importance & Management, Todd Brown, BASF Carpenter ants are exceptionally common, exceptionally destructive pests. Left unchecked, a carpenter ant infestation can spread rapidly. This session will provide an in depth look at the Carpenter Ant, it's Life History, Economic Importance and tips for successful management.
12:15 PM	1:15 PM	Lunch with Exhibits
1:15 PM	2:15 PM	Wood Destroying Beetles, Dick Whitman, BCE, Whitman Exterminating This talk will take you through the identification of the major wood destroying beetles. We'll discuss types of wood conducive to beetle damage and their exit holes, ending with control measures of all the beetles.
2:15 PM	2:30 PM	Refreshment Break with Exhibits
2:30 PM	3:30 PM	Successful Termite Baiting and Inspections, Jessi Allen, Corteva Termite management relies on good inspections, understanding biology and using the right tools for the job. In this session, attendees will hear helpful tips for termite inspections and an outline of basic termite biology. By using good inspections and understanding biology, implementation of a successful baiting strategy can be achieved. Attendees will learn about baiting techniques and tactics to add to their toolbox for termite control.
